## JAIL DELIVERY AT LEWIS COUNTY BASTILE

Two Pass Jailor's Wife and Marshal and Make Good Their Escape.

The Lewis County Leader says: Last Thursday while Chas. Ruggles was giving water to the prisoners confined in the county jail, two prisoners attacked him, cutting his hand and hitting him on the head.

The story as told us by Mr. Ruggles is as follows: When he entered the jail, Mrs. Sullivan, the jailer's wife, was holding the door. The prisoners made a dash, knocking her down and going over the top of her. Mr. Ruggles was struck over the head, knocking him senseless, and was severely cut. The prisoners, John Clark, and the unknown man who tried to pass a bogus check on J. T. Ort, escaped and have not been heard of.

The forger, it is alleged, stole a horse from Mr. Curtis, of Crum, the same night he escaped.

William Eyer.

## WOUNDED MAN IS SINKING STEADILY IN HOSPITAL HERE

Lee Carr Shot at Mayslick Dance Thursday Night Will Not Likely Recover From Wound Attending Physicians Think.

Lee Carr, of Washington Court House, Ohio, district manager for the Sunlight Creamery Company, with headquarters in Maysville, is at the point of death at Hayswood Hospital with a gun shot wound in his abdomen inflicted at a dance at Mayslick Thursday evening by an unknown man supposed to be a friend of a young man with whom Carr is said to have had trouble earlier in the evening.

"Some trouble arose between Carr and a young man from Nicholas county early in the evening when an attempt was made to divide a couple dancing by Carr and Carr is said to have struck the Nicholas county man in the face knocking him to the floor.

Particulars of the shooting which happened after this trouble and on the outside of the dance hall are hard to get. Lucy Ritchie and Hazel Sprague, Maysville girls who accompanied Carr to Mayslick, say that during an intermission they with Carr and another young man took an automobile ride and returning to the dance hall Carr remarked that the crowd was getting a little rough and the girls suggested going home. As the auto drove up in front of the dance hall, the girls say a young man, stepped up to the auto and asked Carr if he wanted to start something and Carr replied that he did not but that if he had to he could whereupon the young man drew a revolver and fired striking Carr in the abdomen. The girls say they are positive that the man who shot Carr was not the one with whom he had trouble previously.

Sheriff Galbreath and Stenographer R. B. Adair went to the hospital Friday morning at 11 o'clock and endeavored to get a statement from Carr but he said he had no statement to make and told the sheriff that he did not know the man who shot him.

Physicians operated Friday morning. Carr's bowels are punctured and there is little hope for his recovery.

## SPECIAL SQUAD OF DRY MEN COMING

To Break Up "Bootleggers' Trust" in Kentucky, Lucas Says Haynes Informed Him While Here.

Louisville, Oct. 28. — A special squad of prohibition agents is to be sent to Kentucky on order of Commissioner Haynes to break up the "bootleggers' trust" in this state, according to Revenue Collector Robert H. Lucas, who returned Thursday from a conference at Lexington with the chief prohibition official.

The collector said he called the commissioner's attention to the existence of an organization of men who have removed whisky from a number of distilleries and disposed of it illegally. Several distilleries are involved, the collector said, and he asked the commissioner to send a squad of special men to investigate the robberies, faked or real, and to break up the looking.

However, there have been no distillery robberies in the last several weeks and Commissioner Haynes told him, Mr. Lucas said, that he believed Lucas' "shoot to kill" order to the distillery guards was largely responsible of conditions.

The collector said that Commissioner Haynes thought that the tendency of the press to expose distillery robberies and fight bootleggers was largely responsible for a betterment of conditions.

## COLONELS AND HARVARD WILL BATTLE SATURDAY

Kentucky Turns Its Attention to Cambridge Where the "Praying Colonels" and Harvard Clash.

Interest of all Kentuckians is turned Saturday to the East where the "Praying Colonels" from Centro College and the Harvard squad will stage their second football clash. Last year the Harvard squad defeated the Kentucky team by a score of 31 to 14.

The Colonels are in the best of condition for the game and thousands will witness it at the great Harvard Stadium. Scores of Kentuckians accompanied the Centro team to the East and thousands of former Kentuckians will be on hand to root for the representatives of the Bluegrass state.

The Forest Avenue Parent-Teachers' Association has an open session Friday evening which promises to be quite an interesting event.

### RUSSIAN COMMUNISM ROTTEN TO THE CORE.

Enprincipled deceit is a typical phase of the conscienceless policy which the Russian soviet government applies in connection with its visionary political failures. Nikolai Lenin, premier, having enjoyed a vacation and some contemplation, has given an interview that portrays the hopelessness of the Russian situation under the radical administration.

Through compulsion the soviet government has been obliged to re-establish the capitalist system and reorganize the universally effective principal of the right of property ownership. Even money is in use again. Yet, he states that "The October revolution has overthrown feudalism and barbaric capitalism. We have been especially successful with the religious and feminist problems. We have given the world a new form of democracy, namely, a proletarian dictatorship."

The soviets have been attempting to destroy all religion. They have legalized marriage by declaration and divorce by declaration. They have been operating a bureaucratic autocracy, with a spying organization, more despotic even than the absolutism of the czar.

The downfall of such a contemptible, unscrupulous government is easily discernible. Society could not exist without religious reverence and domestic sanctity. Communism inevitably must extinguish itself, for it is rotten to the core.

### INTERNATIONAL MEET OF S. S. PLANNED FOR S. LOUIS

Great Convention of Sunday School  
Workers is Planned for  
June 21 to 27th.

1,677,695 Sunday school officers and teachers and 12,036,246 pupils in the United States and Canada are already planning for their delegates to the sixteenth International Sunday School Association Convention to be held in Convention Hall, Kansas City, Missouri, June 21 to 27, 1922. And the executive secretary, Dr. Marion Lawrence for over 20 years Secretary of the association, is devoting his entire time to settling up and perfecting the arrangements for what is expected to be the greatest and most significant Sunday school gathering ever held. 8,000 official delegates from 54 state Sunday school associations in the United States and 9 provincial Sunday school associations in Canada are expected to be present. Even at this early date it has been necessary to limit the number of delegates that each state and provincial association can send to one for every 4,000 Sunday school members actually enrolled.

Unusual significance is attached to this sixteenth International Sunday school convention due to the fact that it is the first time in the history of Sunday school work that all of the national and international forces have been united in their work. For a number of years there have existed two great Sunday school organizations, the International Sunday school association which is organized into state and county association and the Sunday School Council of Evangelical Denominations. This latter body is composed of representatives of 32 denominations, while the former has worked through these same denominations and non-denominational schools.

The bringing together of these two bodies into one organization and the unifying of a little efforts and plans makes possible an educational committee which is now preparing a comprehensive plan of religious education which will bear an abundant fruit in the lives of the next generation of American and Canadian citizens. This committee will present its program on the afternoons of Wednesday,

Thursday and Friday, June 21, 22 and 23.

Moreover, the sixteenth International Sunday school convention will not be a convention of speeches only. Experts of national and international fame will be heard but a considerable amount of time will be given to institute work by groups. This makes it possible for Sunday school workers with children, or young people or adults to get instruction for their particular need. It also gives opportunity for those whose work is of an administrative character or among special types of people or in the field of missions or temperance, to study their own particular problem in a group giving itself to this task alone. There will also be conferences of those who prepare the lesson systems, those who write the helps for the Sunday school lessons, and the publishers of lesson helps and dealers in Sunday school supplies.

It is planned that there shall be an "Association Day Service" in all of the Sunday schools of the continent on convention Sunday, June 25. On this day the conventioners will attend the Sunday school of their preference in Kansas City, and many of them will supply pulpits in the Twin Cities. The evening meeting will be given over to the work of the World's Sunday School Association of which Honorable John Wanamaker is president and Mr. Frank L. Brown is executive secretary. This program will be prepared and presented by the officers of the world's association.

Professor H. Augustine Smith of Boston University will be in charge of the music, Mr. Arthur F. Stevens of the Methodist Book Concern, New York City, will prepare and direct a great exhibit of Sunday school helps, supplies and activities.

A memorial service will be held for Sunday school leaders of the United States and Canada who have died since the last convention which was held in Buffalo, New York, June 19 '02, 1918. Furloughed foreign missionaries who may be in the country are to be registered without fee and invited to sit on the platform. The registration fee for all others is to be \$2.50 which includes a copy of the printed report for the convention.

Special recognition will be given to the Golden Anniversary of the introduction of the uniform lessons, which

first made possible a general systematic study of the Bible. There will also be a celebration of the merging of interests of the International Association and the Sunday School Council of Evangelical Denominations. Monday, night, June 26, will be devoted to the special session on Christian Stewardship with speakers of national reputation, while the last session of the convention will be devoted to a great spiritual message and the emphasis of evangelism.

The text on the convention at Kansas City will be "Jesus Christ, the Chief Corner Stone" an dthe working theme of the convention, "Building Together." The special themes for each day will be "Building Together Through the Home," "Building Together Through the Church," "Building Together with the Nation," "Building Together Throughout the World," etc.

## New York Letter

by Lucy Jeanne Price

New York. — I am always thinking up clever advertising for mythical enterprises, because one gets so fed up with some of the stuff which is always bobbing up before you. I was in the recording laboratory of one of the big talking machine concerns lately and had a very good time. It seemed so ludicrous to see a huge jazz band mounted on dunces stools of varying height blowing away into one little horn which was recording their wheezes, without any apparent point or purpose. But as I came out of a side door and looked over to the main entrance to the room, I saw a typical spread footed colored janitor, leaning up against the door, his ear firmly fastened to the portal crack, absolutely carried away by the seductive notes from within. As he stood there he was the best picture for an ad I had ever seen. I could think of many slogans for my ad: "Gets 'em right here where we make 'em"; "The help won't work for listenin'";—but like so many other ideas of mine, I suppose no one will ever benefit by them.

I hate to gossip, and I wouldn't tell his name for anything, but one of our

### WOMEN'S WOES

Maysville Women Are Finding Relief At Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up" must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Keeping the kidneys well has spared thousands of women much misery. Read of a remedy for kidney ills only that is endorsed by people you know. Mrs. E. L. Cullen, 322 West Second street, Maysville, says: "Three years ago I had an attack of kidney trouble and my back ached continually. I had no ambition to do my housework and everything seemed a drag to me while going about it. I had blinding, dizzy spells and my head ached all the time. My kidneys were not acting regularly and in other ways showed signs of disorder. Doan's Kidney Pills were recommended to me and I sent to Wood & Bone drug store and got a box. After using them I got over the trouble entirely and have never since been bothered. I willingly recommend this remedy."

"Well," he answered, "I have one of the richest architects in New York, and he says he is going to give me one of the best places on the island." "But what style of architecture is it to be?" the friend persisted. "Oh, he knows, it is to be a 'period house,' all new style." "But what period?" "Well," he answered in a guarded voice as if it were a secret, "He says it is to be Italian reminiscent." Some how I believe the magnate was smarter than he knew, as most of the affections in houses out here are just "reminiscent."

I like a man in New York and I don't know him. S. Jay Kaufman, who writes, "Round the Town," for one of the evening sheets, always takes occasion to boost anything that any one is doing out of the goodness in his heart for any one else. "I call that cricket. We are always having benefits and things for the less fortunate and Kaufman always has something good to say about them. I like that!"

—NY—  
Having tried to arrive at international understanding through various kinds of statements and correspondence which nobody ever can understand in spite of their gestures of appreciation and accord, some one has come forward with what would seem a good, sensible thought. Instead of all this long distance gesticulation, why not just get acquainted, said he. It sounded reasonable. Consequently, delegates from English, French, Swedish, Norwegian, Danish and other foreign travel clubs will join with American and Canadian organizations in conjunction with the Travel Club of America in Travel Week, to be celebrated in New York, January 21-28, with the idea of stimulating the people of all countries to travel more widely, to the end of developing better understanding. Governors of various states in the union will proclaim the week and authorization has been given by many foreign governments. Maurice Francis Egan, former minister to Denmark and Vice President of the Travel Club, will head the General Celebration Committee. Harry Collins Walsh, explorer, is President of the Club.

slump in theatricals, due to road expense disputes between the managers and the actor organizations, and the glut of plays in the New York market, has at least suggested a solution, worked out in the plans of The Curtain, the very newest theatrical venture here. An advisory committee, which reads like a combined social and art register, would further the work of an organization of which Mrs. Vern de Cordova Sanville, Rlenzi de Cordova, and Edith Ellis, are the executive committee. The Curtain is to be a small house of 299 seating capacity and it to be situated on the upper west side. This tiny little temple is to house all of the allied arts, and while experimental in its object is to be made up entirely of professions and competent amateurs as will work under professional direction. There is to be a children's department where plays for the young are to be tried out at special matinees. Plays of the best are offered this ambitious group from such writers as John Drinkwater, and Eugene O'Neill, art work by Livingston Platt, Child Hassam, Willy Pogany, Robert Henri and S. J. Wolf; and actors, Mrs. Fiske, Margaret Anglin, Margaret Wycherly, George Arliss, Lionel Atwill, Jobbrook Blinn offers to "carry a spear," and Richard Bennett play a butler—of them there is no end. Here at last seems to be the "Repertoire Theater."

—NY—  
The old devotees of the nineteenth hole have a final shock in store for them out of the world of golf. The Madison Brook Club Corporation, organized from wealth and position here

is to have three eighteen hole courses of which one is to be entirely for women. A woman golfer never had a chance on any links on Saturday or Sunday and her dubbing around was only tolerated during the week, but in this organization she is to have the right of way every day. The club proposes to be one of the show country clubs of the East, but no feature will be more impressive to the male fan than this unheard of innovation. Of course they used to say the nineteenth hole ceremonial would never pass—perhaps the women knew all the time. They are looking after themselves at any rate.

LUCY JEANNE PRICE.  
C. S. LUMBER CUT DECREASED IN 1921  
Western States Alone Show Increase In the Cut of Lumber During the Year 1920.

Washington, D. C. — The lumber cut of the United States in 1920 was 33,798,800,000 feet, which is 2.2 per cent. less than in 1919, and 27 per cent. than the peak in 1907. The average price of lumber at the mill increased to \$38.42 per thousand, which is a rise of 150 per cent. since 1910. The aggregate value of the cut is \$1,299,000,000. These are the highest annual valuations ever recorded, but do not indicate present conditions. They merely reflect the extremely high peak in the post-war lumber prices which was passed in the first quarter of 1920.

These are the principal statistics obtained by the Forest Service, United States Department of Agriculture, in its 1920 canvass of American sawmills. They are based upon reports from 15,978 active mills out of 23,243 estimated to have been in operation. Several thousand mills cutting less than 50,000 feet were not tabulated, though allowance was made for their cut. Comparisons with 1919 are published by permission of the Bureau of the Census, United States Department of Commerce.

The tables show that the states which increased their cut are all in the Pacific Coast group and the Rocky Mountains. Washington is first as usual. Oregon attains second place for the first time, displacing Louisiana from a position held for 15 years, while California takes rank among the first five, displacing another southern yellow pine state.

In 1920 the Pacific and Rocky Mountain groups of states, produced 35.6 per cent. of the cut. The eight states of the southern pine group produced 34 per cent., while all the rest of the United States produced 30.4 per cent.

The combined production of Douglas fir and western yellow pine, which in 1919 was less than 6 per cent. of the amount of southern yellow pine cut, in 1920 became 83 per cent. This relative increase in the western species arises in part from the decrease in southern pine production, which amounted to 15 per cent. The conditions reported by southern operators, arising directly or indirectly from the World War, were so adverse that the southern pine may be expected to recover part of the lost ground during the next few years. But the indica-

tions of the statistics are that the supremacy in lumber production held by the southern pine states has passed the zenith and is moving to the West.

## THE DOOR SLAMS ON HAPPINESS

Poor Blood Makes Bad Health—Then Come the "Hines."

Once the vigor of red blood becomes sapped of its strength, the door to happiness is literally slammed. Weariness of body follows and it unfailingly engenders depressed thoughts. To be reserved and cheerless becomes a habit. After a time there is an almost filmy dimness in the expression of the eyes and a pallor to the skin. Days seem dull and dark and dim. A sense of insufferable gloom pervades the spirit.

Then it is that Gude's Pepto-Mangan is the great help. It is a red blood builder. It puts red into the blood—increases the number of corpuscles which make blood rich and red. When the blood is restored to its natural healthy state, the sensation of well-being returns. Instead of suffering along carelessly, there is the firm and springy step, the bright lusterful eyes, the clear complexion, identified with the strength and vigor of good health. The druggist has Gude's Pepto-Mangan in both liquid and tablet form.—Advertisement.

## RAIL STRIKE IS CALLED OFF BY THE BIG FIVE LEADERS

Public Sentiment That Strike Was Against the Government Forces Officials to Annul the Strike Orders.

Chicago, Oct. 28. — The rail strike scheduled for October 30 was averted Thursday night when leaders of the switchmen, trainmen, conductors, engineers and firemen at a joint meeting adopted resolutions withdrawing authorization of a walkout, and officials of the railroad telegraphers' organization announced that they would like similar action. There were the only unions which had authorized a strike.

The vote calling off the strike was unanimous by organizations, W. G. Lee, President of the Brotherhood of Railroad Trainmen announced. The official wording of the resolution adopted was that the "strike be declared not effective."

Unofficial reports were that the firemen's executives had strenuously opposed adoption of the resolution. None of the President would confirm this, however.

L. E. Sheppard, President of the Order of Railway Conductors, said that the unions had decided to call off the strike because of "the growing public opinion that the strike would be against the Labor Board, and consequently, the government, and not against the railroads."

"It was evident also that the entire Washington administration was against us and that we have had little chance of gaining our objectives," said Mr. Sheppard.

"We called this strike to gain certain rights to which our men were entitled."

"It soon became evident, however, that the roads were succeeding in their misleading propaganda to the effect that we really would be striking against the government."

"This railroad propaganda found its way to the United States Railroad Labor Board. This governmental agency told us that it would look on a strike as against it and the government, and not against the roads, and that the full force of the government would be brought to bear against us if we walked out. Under such circumstances there was nothing to do but annul our orders for the October 30 walkout."

### BROWNIE PROVES TO BE "SOME LOVER."

Brownie, the Century wonder dog, will entertain the kids at the Pastime Saturday. Every kid in town likes Brownie, the almost human dog. His likeness will appear in "Alfalfa Love" and he proves himself to be "some lover." ## LOCAL DAM WILL BE IN OPERATION BY SATURDAY EVENING

Wickets Now Being Placed and Locks Will Be Temporarily Worked By Government Boat Completing Ohio River Chain.

Dam 33 just east of Maysville will be in operation by Saturday evening, this announcement was made from the U. S. Engineers' Office at the dam at noon Friday.

Wickets are now being raised slowly so as to prevent a sudden drop in the river below the dam. Work at raising the wickets was begun Thursday and they are being brought up gradually today. It is thought that they will all be in position by Saturday evening and the locks and dam will be in perfect operation.

The locks are all ready for operation, being handled by power furnished by a government steamboat temporarily hooked to the machinery as the permanent power house is not yet in operation. Thus far no steamboat has been locked through but this will probably be done Saturday or Sunday for the first time.

The completion of the local dam will greatly facilitate the shipment of coal from the mines in the Big Kanawha district to Cincinnati and Louisville during the slack water period. With the completion of this dam every alternate dam in the chain between Point Pleasant, W. Va., and Fernbank will be in operation.

### FIRST "COAL WAVE" IN OHIO IS DUE HERE ON MONDAY.

The first of a series of "coal waves" in the Ohio River is due to arrive at Cincinnati on Monday, according to Colonel Kutz of the United States Engineers, who said Thursday that he was ready to start an artificial "wave" in the river in response to a request from Cincinnati coal men. The "wave" will enable a number of fleets of coal-laden barges to make the trip down the shallow river which they otherwise would not be able to navigate.

More "coal waves" will follow at regular intervals during the next six weeks unless the rainy season sets in.

The Women's Foreign Missionary Society of the Third Street M. E. church invites the public in general to come and hear Miss Hess, a returned missionary from Africa, Friday evening at 7 o'clock. An interesting service is promised.

The well has continued to flow. The oil has been examined and declared by those who profess to know to be a high grade Comersett oil.
